

INCA

benefits of membership

The **Insulated Render and Cladding Association (INCA)** is the recognised trade association for the external wall insulation (EWI) industry, representing the major system designers, a nationwide network of specialist installers and the key component suppliers.

With this combination of representation, **INCA** is unrivalled when it comes to providing EWI experience, and its members are at the forefront of improving the energy efficiency of homes and businesses, reducing fuel poverty and regenerating local communities in the UK.

Membership of **INCA** provides a wide range of benefits and support services to ensure that companies are uniquely placed to deliver the highest quality standards for their clients.

benefits of membership

increased business opportunities

- INCA membership is a mark of quality which identifies companies as part of an elite group of professional and reputable market leaders
- The INCA website has an average of 3,000 hits per month providing direct exposure to potential clients

industry representation

- Collective industry voice representing the EWI industry's views to Government, leading client organisations and other key stakeholders
- Member organisation of the National Specialist Contractors' Council (NSCC), which brings together the building supply chain in the UK
- UK representative on the European Association for External Thermal Insulation Composite Systems (EAE) at the forefront of ETICS development across Europe

free professional advice

- Employment
- Health and safety
- Legal and contractual
- Tax and business
- Technical
- Training

“INCA is a badge of quality which I can use to make my business stand out from the crowd when talking to clients. We are increasingly winning work because we are members of a professional organisation and the client knows that they will get a quality service.”

“Being a member of INCA gives us access to a wide range of support which saves us time and money. From running a credit check on a client to being able to offer a warranty on our works, INCA ensures that we are ahead of the competition.”

information

- Direct access to the latest information helping members to keep up-to-date with developments and standards

networking

- Collaborative working across the sector and the rest of the supply chain to discuss key issues, improve services and promote EWI
- INCA Awards recognising innovation and excellence in EWI
- Dedicated Committees and regular meetings for members

INCA

INCA

why choose INCA?

In order to join INCA, companies must satisfy the INCA Criteria for Membership including financial stability, health and safety, insurances, management systems, successful track record, and training. This gives clients using an INCA member the confidence that they are working with a reputable Specialist Contractor that meets recognised standards of competence.

categories of membership

system designer

Manufacturers that design and supply EWI systems

contractor

Specialist Contractors engaged in the application or installation of EWI systems

associate

Other organisations involved in the EWI industry including component and energy suppliers, architects and consultants, and training providers
