

INCA Awards 2019

New Year, New Awards!

Award Categories and Criteria

In 2019 we have two project categories; New Build and Refurbishment. This means that regardless of the project, you will be able to enter and then INCA may sub-divide categories according to the number of entries received.

The [online entry form](#) is set up to make it easier to submit your projects into some of the alternative categories, such as the Architectural Design Award. **Please note:** Entries must be received by **Friday 26 April 2019 at 5:00pm**. Entries received after this date will not be considered.

Project Awards

- **New Build**
- **Refurbishment**

Projects must:

- Be within the UK
- Have a completion date between 1 January and 31 December 2018
- Have a U-value of 0.30 W/m²K or less
- Have the approval of all parties involved in the project including the building owner if required
- Not have previously been shortlisted for an INCA Award
- Have the EWI System Designer involved in the project as current members of INCA at the time of entry (**this means that non-member Contractors can be entered into the awards this year**)

The Heritage Award

This award recognises projects that are 8 or more years old, which have stood the test of time, showcasing the benefits of installing EWI on a building.

Projects must:

- Be within the UK
- Have been completed before December 2010
- Have a U-value of 0.30 W/m²k or less
- Have the approval of all parties involved in the project including the building owner if required

Pictures supplied must include:

- A picture from when the project was completed
- A picture taken of the project in the past year

Component Supplier of the Year Award

Another new award which was introduced last year, is Component Supplier of the Year. Component suppliers are a cornerstone of the EWI industry, and this award acknowledges their contribution. Unusually, for this award INCA will contact all System Designer members and ask them to vote for their preferred component supplier. The winner will then be announced at the Awards Ceremony.

Architectural Design Award

The Architectural Design Award recognises fantastic design with the use of EWI. Only the System Designer has to be a current member of INCA at the time of entry, and the project completion date must still be between 1 January and 31 December 2018. Architectural Design Award entries should be accompanied by a maximum of 5 photographs of the design and completed project.

INCA Awards 2019

New Year, New Awards!

Installer of the Year Award

The Installer of the Year Award recognises the achievements of INCA contractor members for their innovative solutions, community engagement and the uniqueness of projects. **This award is for INCA Contractor members only.**

Innovation Award

The Innovation Award recognises innovation in EWI systems, products and technologies. The award also recognises game-changing developments and initiatives in the EWI industry covering areas such as installation practice, project management and health and safety. **Entrants must be INCA members.**

Training Award

The Training Award can be awarded to an INCA member company or individual in the EWI industry. The award recognises company training schemes, projects and strategy, but also individuals such as training managers and apprentices that have demonstrated an exceptional commitment to training.

Outstanding Achievement

The Outstanding Achievement Award recognises an individual who has made a real difference to the EWI industry through personal attainment. Anyone from a Managing Director to an apprentice can be nominated for initiatives including business development, health and safety, marketing, and technical development.
