

## **Coronavirus – INCA Member Information and Guidance – July 2020**

### **A Safe Return to site**

#### **Site Operating Procedures**

Construction sites operating during the Coronavirus (Covid-19) pandemic need to ensure they are protecting their workforce and minimising the risk of spread of infection. This includes considering how personnel travel to and from site. This guidance is intended to introduce consistent measures on construction sites of all types and sizes in line with the Government's guidelines on social distancing and ensure employers and individuals make every effort to comply.

There have been several queries surrounding the implementation of SOP in areas such as Leicester that have been subjected to localised lockdown. The Site Operating Procedures clearly state that Government guidance must be followed and it is expected that sites will assess the local conditions and respond accordingly, including maintaining the social distancing practices in place prior to the easing of the national lockdown, such as not opening canteens and rigorously enforcing hygiene and cleaning regimes.

From the INCA Team. Keep safe, stay healthy. The commitment amongst us all will ensure that we get through this time together.
